

The design process often takes place in close collaboration with the client. Our engineers use the latest technology such as specialised software, subscriptions to the latest research, and modern IT.

Our mechanical designs solve your problems.

Heat Exchangers

- Condensers
- Coolers
- Preheaters

E&S Pharma Competence

Columns

- Pure steam
- Distillation
- WFI

Pressure Vessels

- Large one-offs
- Serial vessel fabrication

Piping & Installation

- Prefabrication
- On-site installation
